WHAT MAKES PROVIA® PROFESSIONAL-CLASS?

TAILORED JUST FOR YOUR HOME
Nothing feels quite as good as well-tailored clothing, created specifically to your size, shape and style preference. Off-the-rack clothing just doesn’t fit everyone’s measurements. Similarly, off-the-rack doors fall short of expectations in the same way. The materials and workmanship that go into custom-made doors are of exceptional quality and durability, and far exceed what is available as ready-made. Unlike consumer-grade doors, which are cut down to fit your need, professional-class doors are built to your exact measurements for a better fit and a more secure and energy efficient door.
Entry systems tailored for you - that’s THE PROFESSIONAL WAY.

HIGHEST STANDARDS
ProVia is committed to making doors individually customized for homeowners to the highest standards of durability, security and energy efficiency in the residential market. A clear difference so defining that it has established a new category of professional–class doors, a better alternative to consumer-grade doors.

SECURITY
We focus on the strength and security of every door so you can focus on what’s really important - your life.

DURABILITY
Made with the finest materials and backed by our Lifetime Limited Transferable Warranty, our durability can’t be beat.

BEAUTY
A beautiful ProVia entry system will always greet your guests with classic elegance and style.

ENERGY EFFICIENCY
Engineered to keep the elements at bay and your home comfortable all year long.
**PROVIA BUILDS DOORS**  
**THE PROFESSIONAL WAY**

ProVia has developed a competitive position by catering to a niche within the door market that demands a high degree of customization coupled with outstanding quality. Our company defines the products that meet this demand as “professional-class.” We have found success by adhering to a set of core values that guide us as we develop rewarding, long-term relationships with our employees, customers and homeowners.

---

**WE SERVE BY CARING FOR**  
**DETAILS**  
**IN WAYS OTHERS WON’T**

**IT HAS LED US TO**  
**EXACTING STANDARDS**

If you ask around, you’ll find attention to detail is what our customers have come to appreciate and expect from the ProVia brand. Our company is family-owned and faith-based with an intense focus on producing Professional-Class products. ProVia feels so strongly about the performance and workmanship of our entry system—built by skilled craftspeople with state-of-the-art manufacturing processes—that it’s backed with a Lifetime Limited Warranty. The warranty is even transferable to one subsequent owner. You can visit our website provia.com for details. We’re building your doors and our company to last a lifetime—*that’s THE PROFESSIONAL WAY.*

---

**INDUSTRY ASSOCIATION**

ProVia is a proud member of the Window and Door Manufacturers Association (WDMA) and American Architectural Manufacturers Association (AAMA) — leading voices in our industry. As such, we support advocacy in building code and ASTM standard arenas, quality materials, installation and design in Doors and Windows.
ENVIRONMENTAL STEWARDSHIP
We’re constantly testing new Certified Wind Load and Impact Shield products. For the latest information visit: provia.com/certification

WIND LOAD PRODUCTS

Impact Shield Products are designed to protect your family and home against the harshest storms and help deter burglaries. Impact Shield products feature laminated glass and can withstand repeated blows from wind-borne debris or unwanted intruders and are indicated throughout this catalog with the blue shield icon and blue colored type. See Impact Shield section on pgs 150-167 for information and available styles.

Most of our Entry Systems are ENERGY STAR certified.

At ProVia, not only do we manufacture energy efficient products, but we also exercise corporate environmental stewardship. Here are a few examples:

• We recycle paper, metals and glass.
• Solar energy panels are being used at three production facilities as part of the company’s effort to lower energy costs.
• Our Pollution Prevention Program dramatically reduced solvent usage.
• To save fuel, our trucks use the TriPac™ Idle Reduction and Temperature Management System.
• Paperless online ordering and internal paperless fax system reduces paper usage.

For more information, visit the Environmental Stewardship section of our website at: provia.com/energy-star

CERTIFIED WIND LOAD PRODUCTS

Most products in this catalog meet or exceed testing standards required by the Florida Building Code. Products that were NOT tested for Certified Wind Load regions are noted throughout this catalog in gold colored type.

ENERGY STAR®

ProVia’s ENERGY STAR certified doors and windows are independently tested and certified to meet strict energy-efficiency standards set by the Environmental Protection Agency (EPA). The EPA has awarded ProVia® eleven times, four for Partner of the Year, six for Partner of the Year – Sustained Excellence, and once for Excellence in Promotion. Most recently, ProVia was awarded ENERGY STAR Partner of the Year - Sustained Excellence for Door and Window Manufacturing.

For the latest information visit: provia.com/certification
How does **YOUR HOME'S STYLE** determine **YOUR CHOICE** of a new entryway?

Your home has its own style and every component works in harmony to create that style. Choosing a door and door glass that fits your needs, as well as your style, is important. We make it easy for you to make the choice that's right for you. When you combine your preferred door style, door glass, paint or stain finish, plus hardware and accessories, the end result is a customized entryway that reflects your personalized style.

**SUGGESTIONS TO GET YOU STARTED**

**AMERICAN CRAFTSMAN STYLE**

Might include: Craftsman, Arts and Crafts, Cottage, Bungalows and Prairie House.

Photographs have been provided to offer ideas on how ProVia® doors can be incorporated onto a variety of home styles. We understand your personal style will be a major factor in determining which door and glass is right for you, so please browse through the entire catalog to find a style that best fits your needs.

Suggested Door Styles:

- 420.D5
- 420
- 430
- 419
- 006
- 440

Suggested Glass Styles:

- Berkley
- Laurence
- Carrington
- Tacoma
- Aztec
- Vintage
- Lincoln
- Cambria
- Westin
CLASSIC/colonial style
Might include: Federal, Cape Cod, Dutch, Farmhouse, Traditional, Georgian and Gambrel.

Suggested Door Styles:

Suggested Glass Styles:

Symphony  Somerset  Constance  Jewel  Eclipse  Florence  Beveled  Tuscany  Twilight  Haven
OLD WORLD STYLE
Might Include: Victorian, Queen Anne, Neo-eclectic, Mediterranean, European and French Countryside.

Suggested Door Styles:

Suggested Glass Styles:

Cheyenne  Carrington  Carmen  Barcelona  Esmond  Carlisle

Tulips  Harmony  Americana  Blossoms  Cambria  Westin
MODERN/CONTEMPORARY STYLE
Might include: Ranch, Split Level, International, Rectangular, Geometric and Curved Architecture.

The components are the small things that set our doors apart from the competition. A lot of small things add up to a big difference.

NEW FusionFrame™

IT’S NOT JUST A FRAME—IT’S A FULL INSTALLATION SYSTEM.

Introducing the new FusionFrame: A one-of-a-kind alternative to composite or wood jambs, utilizing the strength of an LVL interior, the rot-proof performance of a FrameSaver® bottom, and the durability of a composite frame exterior. Offering a lifetime jamb warranty*.

PREFINISHED, MAINTENANCE-FREE

Available as a textured or smooth frame, providing you with the benefit of a prefinished, maintenance-free system, along with the beauty of a stain or paint finish that matches your entry door.

*Finish warranty will match the finish warranty of door series

Not available in transoms or for outswing doors. See Price List pg 29 for complete limitations and restrictions.
**FrameSaver®**

Our stains and glazed finishes are hand-applied by professionals, then oven-cured for maximum beauty and durability. State-of-the-art electrostatic paint application ensures a beautiful even coat.

You can have your Entry System painted or stained in any custom color. (Additional lead-time required. Custom stains only available on Signet Fiberglass doors.)

We offer hardware from Trilennium®, Hoppe®, Emtek®, Brinks® and Schlage® that provide some of the most stylish, durable hardware available today.

Our polyurethane core reduces energy loss.

---

**Real World Frame Issues**

Shrinking and swelling occur from changes in relative humidity in the atmosphere. Water wicks up through wood fibers resulting in paint peeling, rot and mold. Traditional door frames begin to rot within 3-6 months of field installation.

**FrameSaver Advantages**

Our finger-jointed composite bottom never absorbs water, warps, cracks or rots, and paints and finishes just like wood. Plus, FrameSaver is backed by the industry’s only fully-transferable lifetime limited warranty for ultimate peace of mind.

---

**Steel L-Frame**

Available on select Signet and Legacy door styles.

- Aluminum door stop provides greater security and is more durable than wood.
- Energy efficient weatherstripping.
- 18-gauge steel L-frame with a 12-gauge hinge plate welded on for extra strength and security.

(NOT tested for Certified Wind Load or Impact Shield regions)

Not all Steel L-Frames are ENERGY STAR® certified. Visit ProVia’s website for manufacturer’s certification statement.

---

*No storm door applied. See full warranty for limitations.
THE COMPONENTS (CONTINUED)
Your home is unique and deserves to have custom glass options like our ComforTech™ Warm Edge Glazing Systems which include decorative glass, Inspirations™ Art glass, internal blinds and internal and external grids in many grid patterns and colors.

Impact Shield doors feature laminated glass.

Our 2½” casing conveniently covers paint lines providing a professional installation. Also available in 3½”. Choose from Cherry, Mahogany, Oak and Poplar. New Flat Fir and Poplar trim are available in paint, stain and glazed finishes.

Three heavy-duty ball bearing hinges come standard with every entry system.

Additional 4th hinge option for greater durability. (only available with FrameSaver®)

The energy efficient weatherstripping runs along the top and sides of the door and interlocks with the CornerShield™ for the most efficient seal you’ll find for keeping moisture, wind and dirt out of your home.

Impact Shield doors have heavy-duty stainless steel hinges.

High-performance, heat-resistant window trim is warranted not to warp, crack or pull away from the door, even in sunny or higher temperature applications. Plugless window trim is standard on Embarq® and Signet® (N/A on Fir Series) and optional for Heritage™ and Legacy™.

Impact Shield doors have aluminum window trim.

† See price list for available styles.

Our exclusive Sahara™ heavy-duty extruded threshold has a wide thermal barrier wood-look riser that will not warp or rot while providing excellent energy efficiency. On entry systems with sidelites, our continuous threshold improves structural integrity and helps prevent rotting. Available in Mill finish, Anodized Nickel or Anodized Bronze finishes.

Thresholds for Impact Shield rated Heritage Fiberglass and Hinged Patio Doors have an oak-like riser and do not have composite base material

We include our 20-gauge security plate for extra strength and to help prevent kick-ins.

We include a solid brass fully adjustable strike plate of our own exclusive design. This unique 2-piece construction makes our doors easier to custom fit.

The dust box in the deadbolt strike provides a barrier to air infiltration while providing a nice appearance that most other door manufacturers don’t provide.

Bulb and blade sweep virtually eliminates drafts, keeping your home comfortable.
EMBARQ® FIBERGLASS

A NEW WAY OF THINKING

We set out on a journey to develop a new door and it expanded into a complete philosophy of creating unrivaled efficiency in home building products. We call this new way of thinking “enVision,” and are proud to introduce its first creation: Embarq – the doorway to innovation and efficiency.

ProVia® Earns Crystal Achievement Award for Most Innovative Door from Window & Door Magazine

Crystal Achievement Awards recognize significant innovations and achievements in window and door technology, manufacturing and marketing.

"Every aspect of the ProVia [Embarq] fiberglass door makes it a winner."

- Crystal Achievement Award Judge

10-YEAR FINISH WARRANTY*

ALL Embarq Fiberglass Entry Systems are ENERGY STAR® Certified.

EMBARQ FIBERGLASS DOOR STYLES

See pages 28-89 for glass availability.

SIDELITES

*Warranty time period may be limited in extreme applications. See warranty for details.
We engineered a channel in the side rails and header of the door to allow for a **larger energy efficient polyurethane core**. Our computer-controlled process fills every crevice with the foam barrier material resulting in a **level of energy efficiency unparalleled in the industry**.

We started from the inside out to maximize energy savings and reduce thermal loss, resulting in the most energy efficient door in the U.S. market. In fact, this door offers at least 4-times more insulating value than a typical wood door giving an unprecedented U-Factor of 0.09 - the lowest recorded heat conduction measurement for entry doors in the U.S.

**The authentic wood look** is made possible by using cutting-edge **NVD** (Nickel Vapor Deposition) technology by **MasterGrain**.

**Scientifically formulated compounds** provide superior resistance to denting, splitting, cracking and warping.

Our exclusive **Bronze Sahara™ heavy-duty extruded threshold** has a 2¾” wide **thermal barrier** wood-look riser that will not warp or rot while providing excellent energy efficiency. Also available in **Anodized Nickel** or **Mill finish**.

To enhance efficiency and accommodate more insulation, we thickened the door and sidelites from the standard 1¾” to 2½” which is **43% thicker** than standard exterior doors. We also engineered a **dual perimeter seal** for the entry door to create a superior barrier against drafts and energy leaks.

**Door edge** is constructed with cherry, mahogany or oak wood matching the selected series.

**The 4⅛” finger-jointed 4-ply hardwood strike stile** provides a solid mounting surface for Emtek® hardware and superior structural integrity.

The revolutionary **DuraFuse™ Finishing System featuring P3 Fusion** yields unprecedented finish durability.

We custom designed a sweep to accommodate the Embarq door’s added thickness. This creates a new breed of thermal barrier to keep out unwanted elements and uncomfortable temperatures.

Embarq Construction
QUAD GLASS SYSTEM

Our enVision™ innovation and technology has created a revolutionary new design utilizing a Quad Glass System. This glass system is only available for Embarq fiberglass doors and sidelites and utilizes the most energy efficient glass package available on the market today. This high performance glass system provides an optimal energy efficiency rating.

A Low-E Glass Surface
B Krypton Filled Air Space
C Decorative Glass Core
D Super Spacer®
E Tri-Seal Spacer
F We re-engineered our ComforTech Warm Edge Glazing System to accommodate for the extra panes of glass in this highly efficient package.

SKINS AND FINISHES

Embarq doors available in Cherry, Mahogany, Oak and Knotty Alder and feature all the same stain and paint finishes as our Signet® doors shown on pg. 95.
HARDWARE

Embarq doors are only available with Emtek® hardware. See pg. 106 for finish availability.

Embarq doors are also available with Colonial Door Knocker, Peepsite, Kick Plate (on page 115), Faux Speakeasy, Hinge Straps and Clavos (on page 117).
SIGNET® FIBERGLASS

SIGNET SKIN OPTIONS

MAHOGANY          CHERRY          OAK          KNOTTY ALDER          FIR          SMOOTH

Signet Fiberglass doors are available in Cherry, Mahogany, Oak, Fir, Knotty Alder and Smooth Series. Structurally, the Signet door is far superior to traditional fiberglass doors with robust hardwood stiles and rails dovetailed at each corner. All Signet Fiberglass doors exhibit our exclusive DuraFuse™ Finishing System featuring P3 Fusion, allowing us to offer an industry-best 10-year* finish warranty.

Most Signet Fiberglass Entry Systems are ENERGY STAR® Certified.

CUSTOMIZE BOTH SIDES
You can customize your entry by ordering a different series, style and finish on each side of your door.

CUSTOM WIDTHS & HEIGHTS
Need a little more height or a little less width? We offer customized door and sidelite widths and heights in 1⁄8” increments.

10-YEAR FINISH WARRANTY*

8’ DOORS

8’ SIDELITE

✓ Signet Cherry  ● Signet Mahogany  + Signet Oak  ▲ Signet Fir  ◇ Signet Smooth

* Only available in 42” x 96” size

Signet Fiberglass doors without glass are available as an Impact Shield Product.

* NOT tested for Certified Wind Load regions

Entry System U-Factor: As low as .16 (Tested to NFRC specifications for a 6 panel door with wood frame).
Note: All Signet doors are shipped finished.

* Warranty time period may be limited in extreme applications. See warranty for details.
† Patents - USD617005, USD621062, USD621063, USD625837, USD625024
Stiles and rails are dovetailed and glued at each corner creating a structurally solid, integrated frame.

The 2\(\frac{3}{8}\)“ finger-jointed 3-ply hardwood hinge stile provides superior structural integrity.

ProVia doors are foam filled by a computer driven process that ensures the optimal foam fill for maximum efficiency and strength.

The authentic wood look is made possible by using cutting-edge NVD (Nickel Vapor Deposition) technology by MasterGrain™.

Scientifically formulated compounds provide superior resistance to denting, splitting, cracking and warping.

High-definition panel profile creates excellent shadow lines and distinct panel designs.

Plugless Window Trim (Patent Pending) is standard on Signet (N/A Fir Series).

The inside door frame is hand-stained or painted to match your door providing you with a consistent visual appearance. (Signet doors are also available with a Steel L-frame.)

Signet fiberglass entry systems come standard with an anodized bronze threshold with a complementary riser.

A high-performance, composite material is utilized on all Signet fiberglass bottom rails, giving excellent rot-resistance.

The revolutionary DuraFuse™ Finishing System featuring P³ Fusion yields unprecedented finish durability.

The 4\(\frac{3}{8}\)“ finger-jointed 4-ply hardwood strike stile provides a solid mounting surface for decorative hardware and superior structural integrity.

Door edge is constructed with cherry, mahogany, oak or fir wood matching the selected series.

SIDELITES

8' DOORS

8' SIDELITES

All Heritage Fiberglass doors without glass are available as an Impact Shield Product.

Entry System U-Factor: As low as .14
(Tested to NFRC specifications for a 6 panel door with wood frame).
* Warranty time period may be limited in extreme applications. See warranty for details.
1\(^{1/8}\)” Finger-jointed, 2-ply solid oak laminated stiles for both hinge and strike sides are proven to provide increased rigidity and structural integrity.

Polyurethane core reduces energy loss.

Improved definition panel profile creates excellent shadow lines and distinct panel designs.

Variable-depth woodgrain texture with hand-applied stain imitates a wood door appearance.

Square-edge design offers an attractive wood door appearance.

Specially engineered fiberglass door facings will not dent and resist splitting, cracking and warping.

Lock area is reinforced to provide a solid mounting surface for decorative hardware.

Plugless Window Trim is optional on Heritage Fiberglass (see Price List for available styles).

A high-performance, composite material is utilized on all Heritage fiberglass bottom rails, giving excellent rot-resistance.

Heritage fiberglass entry systems come standard with an anodized nickel threshold with a complementary riser.
LEGACY™ STEEL

Legacy Steel features add up to a professional-class product. Whether you select Legacy Woodgrain Textured Steel or Smooth Steel, our entry systems will provide an elegant, durable and energy efficient addition to any home.

7-YEAR FINISH WARRANTY* See pgs. 98-99 for paint and stain finishes

Most Legacy Steel Entry Systems are ENERGY STAR® Certified.

Legacy Steel Doors with full-lite or half-lite decorative glass with ComfortTech™ glazing will include a pane of Low-E glass in order to be ENERGY STAR certified. This includes the following styles; 150, 230, 239, 240, 430, 437, 439 and 460. Since Low-E glass has a slight color tint, it is recommended that sidelites and transoms are ordered with optional Low-E pane to match the door.

CUSTOMIZE BOTH SIDES You can customize your entry by ordering a different series, style and finish on each side of your door.

CUSTOM WIDTHS & HEIGHTS Need a little more height or a little less width? We offer customized door and sidelite widths and heights in 1⁄8” increments.

Entry System U-Factor: As low as .17 (Tested to NFRC specifications for a 6 panel door with wood frame).

* Warranty time period may be limited in extreme applications. See warranty for details.

† Patent - USD621062
Legacy Construction

Special adhesives/thermal barrier reduce heat and cold transfer, while our exclusive tab and slot system of mechanical interlocks gives the door exceptional structural strength.

ProVia doors are foam filled by a computer driven process that ensures the optimal foam fill for maximum energy efficiency and strength.

The edges and face skin of our steel doors are one continuous piece of steel for strength and durability.

Plugless Window Trim is optional on Legacy Steel (see Price List for available styles).

Legacy steel entry systems come standard with an anodized nickel threshold with a complementary riser.

To reinforce the lock and deadbolt area, we add a rigid composite lock block to all of our steel doors.

Our 20-gauge steel doors give you 49% more galvannealed steel than a standard 24-gauge door.

Composite bottom endcaps increase rigidity and energy efficiency.

Composite top endcaps increase rigidity and energy efficiency.
Measurably improve thermal performance with our ComforTech™ Warm Edge Glazing System. You’ll enjoy better energy efficiency and a warmer glass edge.

- Grids (Internal, External and SDL)
- Hinged Patio Doors
- Vinyl Sliding Patio Doors
- Vinyl Windows

**Barrier Sealant**

**Flexible Foam Spacer**

**Reverse dual seal technology**
COMFORTECH ADVANTAGES

The NO-Metal Advantage

"Thermal efficiency through no presence of conductive metals" is the Super Spacer hallmark.

Mylar 10-Layer Vapor Barrier

The Super Spacer thermoset foam matrix is exceptional. Moisture is kept out, gas is kept in and conductivity is virtually nonexistent.

Withstands Normal Bowing

The design of our Warm Edge Glazing System stands up to the bending and bowing that is natural in any glass unit.

Enhanced Noise Reduction

Our all-foam formula’s excellent sound-dampening properties reduce outside noise, even in industrial environments.

DECORATIVE GLASS

Highly-skilled craftsmen assemble hand-beveled glass accented with a variety of unique glass options by precisely cutting, mitering and soldering each component into artistically designed patterns. Decorative glass purposefully seeks visual character through aesthetic imperfections, while maintaining structural stability. These “imperfections” mimic the hand-made sheet glass of centuries past. They come in the form of textural waves and striations, random seeds (air bubbles) and a variety of other natural effects. Decorative glass achieves its personality through these apparent flaws and no two sheets are ever identical. Each glass panel is hand-made and reflects minor differences from piece to piece. This is characteristic of any hand-made product and adds to the charm and beauty of the product.

We continually inspect for consistency. The patterns can vary in size and particular shapes, but pose no danger of spontaneous breakage or structural instability. Any patterns that are severely out of character with the glass are not accepted. Our goal is to provide the finest quality

ALL* DECORATIVE GLASS:

1. ProVia Exclusive
These decorative glass designs are only found on ProVia doors. This gives your entryway a unique style that can’t be found anywhere else.

2. Includes our ComforTech Warm Edge Glazing System
Measurably improve thermal performance with our ComforTech™ Warm Edge Glazing System. You’ll enjoy better energy efficiency and a warmer glass edge.

3. Impact Shield available
Impact Shield Products are designed to protect your family and home against the harshest storms and help deter burglaries. Impact Shield products feature laminated glass and can withstand repeated blows from wind-borne debris or unwanted intruders. See pages 150-167 for style availability.

4. Covered by a Lifetime Limited Warranty
Warranty includes glass breakage and seal failure.

* Does NOT include Tuscany glass
Each piece of glass is meticulously inspected for consistency.
Essence features a bronze seedy glass combined with micro-granite that brings elegance to a whole new level.

NEW
DIALOGUE LAYERED GLASS™

Dialogue takes on a personality of its own as layers of glass interact with one another, with light, and with movement. Each of the line’s ceramic frit patterns change form and move as light or a person’s vantage point changes. Patterns come to life, shapes are revealed, and shadows dance as light and movement engage in a dialogue with the glass. Dialogue Layered Glass creates dynamic privacy that changes, just as the doorglass patterns do, with light and proximity.

BRAINSTORM DIALOGUE LAYERED GLASS

Appealing to both mid-modern and modern design sensibilities, Brainstorm’s exterior vertical pattern and interior chevron motif combine for an appearance with both subtlety and substance. Brainstorm layered glass has a medium to medium-high privacy range.

Steel sidelites are made from 24-Gauge steel
Inspire Art Glass allows you to do just what the name suggests, let your doors and windows reflect the inspiration of your imagination with your choice of design and color.

DESIGNS
The process begins with conceptual design. Our twelve beautiful Inspirations Art Glass styles originated from the imagination of our in-house designers.

RESIN BEAD
The design pattern is created on our computer software, and sent to a CNC machine which applies a resin bead to the surface of the glass in one of our four stylish colors.

COLOR FILL
The color fill truly brings the glass to life. Five distinct color palettes are offered empowering you to perfectly reflect the personality of you and your home. Our craftsmen hand-apply this color fill to your glass.

OUR GUARANTEE
The resin bead and color fill are backed by our Lifetime Limited Warranty, and will not fade, blister or peel away from the glass.

Lifetime Limited Warranty
Includes Glass Breakage & Seal Failure

Note: 4-week lead time on all Inspirations designs

Always refer to our color selector for accurate color representation.

† Limited Colors. Available on entry doors and storm doors. Matching cladding and caulking not available.
The Trilennium Multi-Point locking system provides more than just security. It offers homeowners better door closure and sealing than a single point lock.

- Three 1” deadbolts latch with deadbolt throw
- Deadbolts include anti-saw hardened steel pin.
- A solid I-beam runs the full length of the lock, and increases the strength and precision of the lock.
- Latch and deadbolt release with a single downward movement.

Top and bottom latch design allows for door misalignment and 3/16” pull-in when deadbolted.
Trilennium hardware is required on all 8’ Signet® and Heritage™ fiberglass doors. Optional on all other fiberglass doors.

Also available on all 20-gauge Legacy steel doors.

NOT available on Steel L-Frames

Trilennium hardware has a 10-Year warranty on materials and workmanship.

Trilennium hardware is NOT available on French Doors in Certified Wind Load or Impact Shield regions.

**TRILENNIUM HARDWARE IS AVAILABLE IN THESE FINISHES**

- Lifetime Bright Brass
- Lifetime Satin Nickel
- Lifetime Flat Bronze*
- Lifetime Black*

* Flat Bronze does not coordinate with Aged Bronze accessories. NEW Black finish is a closer match to Aged Bronze accessories.

Lifetime finish warranty time period is limited to five years if product is installed in an Impact Shield region.
Hoppe Multi-Point hardware offers the additional security of four points of latching when the door is locked, and the easy operation of one point of latching when the door is unlocked.

- Stainless Steel and other non-corrosive components.
- Anti-Back Drive prevents locking points from disengaging from the outside for added security.
- Latch Blocker on inactive systems will not allow multipoint activation until inactive system is activated.
- Lock Out Feature on interior system allows for multipoint activation from the exterior of the door by lifting handle.
- Backplate and cylinder housing are forged into one piece for improved appearance and easier installation.
- Simultaneous retraction feature enables all locking points to be retracted by pushing down on the inside handle.

Hoppe Multi-Point hardware is available in these finishes:

- Lifetime Bright Brass
- Lifetime Satin Nickel

(Hoppe hardware is NOT tested for Certified Wind Load or Impact Shield regions)
**EXTERIOR STYLES**

**INTERIOR STYLES**

New Orleans Contemporary Arch

New Orleans Classic Arch

**MULTI-POINT LOCKING**

(Lock body faceplate is only available in stainless steel)

A

Three Point Deadbolt lock is engaged by lifting handle upward

B

Handleset latch

**TO LOCK:**

Step 1: Turn thumbturn 1/4 turn counterclockwise

Step 2: Lift handle upward
EMTEK’s Mortise hardware features the added advantages and options that come with push-button controls.

- Push-button passage controls
  *For more passage and locking options*
- Heavy-duty Forged Brass Construction - *For long lasting beauty*
- Solid Brass Nose Bolts on Latches - *For dependable use*
- Lifetime Mechanical Warranty
  *Our guarantee of value*
- Lifetime Anti-tarnish Finish
  *Warranty - Beauty for life*

Push button passage controls provide added security and peace of mind. When the upper button is pressed in, the mortise lock is only accessible by using a key.

To activate the Passage Function, push in the lower button. This will allow you to access the thumb latch without a key.

Note: As long as the Passage Function is NOT engaged, the door will lock automatically when latched, and will not allow entry without a key.

**EMTEK MORTISE HARDWARE IS AVAILABLE IN THESE FINISHES**

- Lifetime Bright Brass
- Lifetime Satin Nickel
- Lifetime Oil Rubbed Bronze

(EMTEK Mortise hardware is NOT tested for Certified Wind Load or Impact Shield regions)

(EMTEK Mortise hardware is only available for Signet Fiberglass and 20-gauge steel doors)

SCHLAGE SENSE™
SMART DEADBOLT

The Schlage Sense Smart Deadbolt makes daily life easier and more convenient. Enter an access code on the touchscreen to unlock the door instead of searching your pockets for keys. Pairing the lock with your smartphone over Bluetooth® is as easy as pairing your phone with your car, and the free Schlage Sense app makes setting up and using the lock as simple as checking email. Share access with trusted friends and family with just a few taps – no more keeping track of spare keys.
CONTROL FROM ANYWHERE

The Schlage Sense Wi-Fi Adapter allows your smartphone to lock/unlock your door from anywhere by creating a secure connection between your Schlage Sense Smart Deadbolt and the Wi-Fi network in your home. Set up is quick and easy, just use the free Schlage Sense app*, compatible with both iOS and Android smartphones.

*Wi-Fi Adapter is not compatible with Apple HomeKit.

HOME AUTOMATION INTEGRATIONS

Lock and unlock your door from anywhere using compatible home automation systems.

ELECTRONIC DEADBOLT

Electronic locksets and deadbolts utilize Schlage’s Innovative keyless access. It’s convenient and is customizable to fit your security needs.

- Deadbolt is available with any Schlage entry hardware
- 9-volt battery included
- Lighted keypad
- Up to 19 user codes
- Easy to add or delete codes
- Lifetime Mechanical and 3-Year Electronics Warranty

8' DOORS

8’ Doors provide a majestic first impression. Choose from many available glass and door styles (shown on pgs. 29-91). Trilennium® multi-point hardware offers homeowners better door closure and sealing than a single point lock.
Trilennium or Hoppe multi-point hardware is required on all 8’ fiberglass doors. See pages 100-101 for more information on Trilennium and Hoppe hardware.
FRENCH DOORS

420DC-SD6-DS Pecan Finish

122
French doors make an elegant statement like nothing else. Express your personality by creating a simple yet striking entry. Make it as ornate and beautiful as you like.

- All door styles are available as a French Door
- Available with FrameSaver® or Steel L-Frame
- Hinged on each end with door knobs in the center
- Available with either left or right active door (main entryway)
- Center astragal is attached to the inactive door and includes top and bottom slide bolts (used to open inactive door)
- Available as inswing or outswing
- Header security plate standard on Frame
- Hardware Installation: locksets, deadbolts and kickplates will be installed on active and inactive doors, all other hardware on active door only
- Also available with Trilennium hardware

**ASTRAGAL DETAILS**  The French Door Astragal provides functionality and security

- Astragal secures inactive door at top and bottom of your french door system
- Lockable throw bolts improve security
- Astragal bolt penetrates threshold allowing boot to seal, creating a better barrier against the elements
- Astragal is stained to match Signet Fiberglass stained doors.

**STYLES/CONFIGURATIONS**  All door styles are available as a French Door.

Custom size clear glass transom  pg. 106

- Cannot be mulled with Heritage Fiberglass doors in Certified Wind Load regions

**UNEQUAL FRENCH DOORS**

You now have the ability to utilize the larger entry door day-to-day, yet have the option to open the smaller, inactive door to gain full access.

Available in smooth steel only. Internal blind sizes are limited. See Price List for details.
HINGED PATIO DOORS

Hinged Patio Doors are swinging patio door systems available in 2 or 3-lite units and constructed of the same solid quality Signet® and Heritage™ Fiberglass, and Legacy™ Woodgrain Textured or Smooth Steel doors as our entry door units.

IMPACT SHIELD AVAILABLE
See pgs. 167 for available door styles.

Designer Patio Doors with Heritage Fiberglass are NOT available in Certified Wind Load regions.
**PATIO DOOR STANDARD FEATURES**

**Custom Widths and Heights** - Need a little more height or a little less width? We are pleased to offer customized patio door widths and heights in 1/8” increments.

**Door Swing** - (Doors viewed from above. Inswing only.)

**Finishes** - Patio doors are available in all finishes shown on pages 21-29.

- Optional Aluminum Frame Cladding will increase brickmold to brickmold width by 1/4” and height by 1/8”.
- Not all sizes available in all door types.

**OPTIONS**

- Custom Widths and Heights - Need a little more height or a little less width? We are pleased to offer customized patio door widths and heights in 1/8” increments.
- Door Swing - (Doors viewed from above. Inswing only.)
- Finishes - Patio doors are available in all finishes shown on pages 21-29.

A keyed Schlage® flair handleset with a Maximum Security thumbturn deadbolt is included. Choose from bright brass, antique brass, satn nickel or aged bronze finish. Optional Lifetime finishes available.

The lock area is reinforced with a 20-gauge steel security plate for added strength.

Spring-loaded latch system automatically engages upon closing. Latch also includes interior locking feature. BetterVue® fiberglass screen mesh is standard. Heavy-duty fiberglass, aluminum or SeeVue® stainless steel screen is optional.

Suspended by ball bearing rollers this top-hung heavy-duty aluminum screen frame reduces binding, creating effortless operation. Screen frames are available in all 16 paint colors.

Our Sahara™ heavy-duty extruded sill has a 1½” wide thermal barrier wood-like riser that will not rot or warp and is non-conductive. Available in Anodized Nickel finish or Anodized Bronze finish.

Thresholds for Impact Shield rated Hinged Patio Doors have an oak-like riser and do not have composite base material.
Vinyl Sliding Patio Doors are tested against the most stringent industry standards for air and water infiltration, wind load resistance, ease of operation, forced entry and much more. This means you’ll have lower heating and air-conditioning costs, easier cleaning, low maintenance and increased comfort.

**Lifetime Limited Warranty**
Includes Glass Breakage & Seal Failure
All Vinyl Sliding Patio Doors are ENERGY STAR® Certified.

Spring-loaded latch system automatically engages upon closing. Latch also includes interior locking feature. BetterVue® fiberglass mesh is standard; heavy-duty fiberglass, stainless steel or aluminum mesh is optional.

AccuVent™ has a clean, sophisticated look with an ergonomic finger-tipped lever design for ease of use. AccuVent is standard for Endure, optional for Aspect and has a Lifetime Warranty.

Galvanized steel reinforced panels ensure rigidity and stable operation.

Fixed and mobile panel rails meet and interlock perfectly, making removal from the outside virtually impossible. Lower sill design provides safer entry and exit.

The vent lock adds peace of mind when you want to leave the door open for ventilation yet keep would-be intruders out. Standard for Aspect, optional for Endure.

AccuVent™ is ProVia’s proprietary design featuring a sash lever combined with a top mounted ratchet and lock system allowing multiple venting locations and peace of mind. Available in all patio door colors along with optional decorative finishes for sash lever.

Patented sliding system features four adjustable 1” wheels per operating panel to ensure smooth, easy and quiet operation.

Sill is reinforced with galvanized steel. Pair that with our patented water draining system, and the results are an efficient and durable base for our patio door.

Strong, multi-chamber profiles and 3/8” frame depth offer greater thermal efficiency and increased sound abatement. (Endure Patio Door frames have Neopor® insulation).

AccuVent™ suspended by ball bearing rollers this top-hung heavy duty aluminum screen frame with BetterVue® fiberglass mesh reduces binding, creating effortless operation.

Suspended by ball bearing rollers this top-hung heavy duty aluminum screen frame with BetterVue® fiberglass mesh reduces binding, creating effortless operation.

Suspended by ball bearing rollers this top-hung heavy duty aluminum screen frame with BetterVue® fiberglass mesh reduces binding, creating effortless operation.

Suspended by ball bearing rollers this top-hung heavy duty aluminum screen frame with BetterVue® fiberglass mesh reduces binding, creating effortless operation.

Suspended by ball bearing rollers this top-hung heavy duty aluminum screen frame with BetterVue® fiberglass mesh reduces binding, creating effortless operation.

Please refer to the Endure and Aspect Patio Door Brochures for more information.
STORM DOORS

Every storm door is individually customized to the highest standards in the residential market for homeowners who appreciate impeccable, uncompromising quality.

All ProVia Storm Doors are available for use in the Impact Shield regions. While storm doors help protect your entry door from the elements, they are NOT wind-borne debris tested, and therefore are NOT considered an Impact Shield Product.
**Non-operable sashes** are secured by our color matched polycarbonate clips or an internal sash lock system. Varies by model.

*Extruded aluminum frame* adds beauty to your door by virtue of the rounded cove molding along the glass edge of the extrusion.

Durable, oven-baked polyester finishes are backed by a Lifetime Warranty for lasting beauty and low maintenance.

You’ll appreciate the finished look of our color matched aluminum installation screw covers.

Smooth function is essential. That’s why we include a quality door closer in every storm door package. Varies by model.

Our air release system features a continuous closing action without the delayed rebound action of previous generation closers.

Corrosion-proof corner gussets enhance the structural integrity of the door.

All our storm doors are constructed with tempered safety glass.

Non-operable sashes are secured by our color matched polycarbonate clips or an internal sash lock system. Varies by model.

Each door features quality hardware that adds beauty and functionality to your new storm door. Varies by model.

Our bottom expander with sweep allows for a beautiful custom-fit to any entry. Varies by model.
The details are the small things that set our storm doors apart from the competition. A lot of small things add up to a big difference.

STORM DOOR DETAILS

CONSTRUCTION

1. InVent™ Retractable Screen System
2. Outside corners are secured to corrosion-proof gussets, for structural integrity
3. Color matched aluminum installation screw covers enhance the appearance of your door
4. The bottom sweep eliminates drafts
5. The sculptured frame adds durability
6. Multi-hollow construction provides greater strength and security than standard storm doors
7. The reinforced aluminum kick panel adds durability
8. The aluminum kick panel resists rust and adds strength
9. Corner keys provide added support to the inside of the door frame
10. Aluminum wall thickness up to 20% thicker than industry standard
11. The .023 gauge stainless steel screen offers extra security and protection (12 x 12 mesh)
12. Non-operable sash/screen secured by internal lock system or color matched polycarbonate clips
13. Standard insulated frame core to help reduce air movement
14. Screen included

STORM DOOR PAINT FINISHING SYSTEM

Our paint process is computer controlled, ensuring professional quality every time. Paint is electrostatically applied with a vertical hydraulic reciprocator using a turbo disc that atomizes the paint particles for better coverage of contoured extrusions.

STORM DOOR PAINT COLORS

- Snow Mist
- Café Cream
- Primrose Yellow †
- Chateau
- Sandpiper Beige
- Sandstone
- Sterling Gray
- Clay
- Geneva Blue
- Enzian Blue †
- Forest Green
- Vallis Red †
- Mountain Berry
- Rustic Bronze
- Tudor Brown
- Coal Black

† Limited Colors. Available on entry doors and storm doors. Matching cladding and caulking not available.

LIFETIME FINISH WARRANTY
For all Storm Doors

Always refer to our color selector for accurate color representation.
SPECTRUM™ STORM DOORS

Spectrum Series storm doors bring you smooth functionality, beauty and durability. Our exclusive top and bottom InVent™ retractable screen system allows you more venting options than ever.

**SPECTRUM STORM DOORS INCLUDE:**
- Two InVent retractable screens
- Triple seal bottom sweep
- 1¼” x 4½” wide sculptured frame

**LIFETIME LIMITED WARRANTY**
Includes Glass Breakage

**STANDARD HARDWARE & ACCESSORIES**

- Satin Nickel Sierra solid brass Mortise Hardware
- Painted Satin Nickel piano hinge
- 1½” Painted Satin Nickel bottom expander
- Color-matched dual closers

**NOT recommended or warranted for coastal applications**
Ask see our Inspirations Art Glass brochure for our complete selection of designs, color palettes and style availability.

Note:
The bottom expander on the Spectrum storm door is 2" on the exterior and 1½" on the interior to accommodate the frame profile.

◊ Bright Brass hardware, anodized brass piano hinge and brass-look bottom expander are standard on Spectrum storm doors with brass caming.

‡ Available in 8’ height

For French Storm Door information refer to pg. 172 of the ProVia® Door Price List
Decorator Series provides a stylish, fresh look to accent your entry. Select one of the distinct styles from our Decorator Series storm doors.

**DECORATOR STORM DOORS INCLUDE:**
- Triple seal bottom sweep
- 1¼” x 4” wide sculptured frame

**LIFETIME LIMITED WARRANTY**
Includes Glass Breakage
Ask to see our Inspirations™ Art Glass brochure for our complete selection of designs, color palettes and style availability.

Optional full screen with horizontal stabilizer bar available for all Decorator doors.
◊ Satin Nickel hardware, and painted Satin Nickel piano hinge are standard on Decorator storm doors with zinc caming or Inspirations Art Glass.
‡ Available in 8’ height

For French Storm Door information refer to pg. 172 of the ProVia® Door Price List
Deluxe Series is the answer whether you’re looking for additional light, ventilation or protection from the elements. You’ll find the exact style you’re looking for in our Deluxe Series of storm doors.

**DELUXE STORM DOORS INCLUDE:**
- Double seal bottom sweep
- 1¼” x 3¾” wide sculptured frame
- BetterVue® Fiberglass Screen

**LIFETIME LIMITED WARRANTY**
Includes Glass Breakage

**STANDARD HARDWARE & ACCESSORIES**
- Black Contemporary Curve lever Hardware
- Color-matched bottom expander
- Heavy-duty color-matched closer
- 4 color-matched leaf hinges with brass bushings
For French Storm Door information refer to pg 172 of the ProVia® Door Price List
DuraGuard is exactly what you need if you’re concerned about keeping your small children and pets safely inside. Select one of our doors with heavy-duty, non-removable stainless steel screening.

**DURAGUARD STORM DOORS INCLUDE:**
- Non-removable .023 stainless steel screen (only available on DuraGuard models)
- Double seal bottom sweep
- 1¼” x 3¾” wide sculptured frame

**LIFETIME LIMITED WARRANTY**
Includes Glass Breakage

**STANDARD HARDWARE & ACCESSORIES**
- Black Contemporary Curve Hardware
- Color matched bottom expander
- 4 color-matched leaf hinges with brass bushings
- Heavy-duty color-matched closers

Note: White screen can appear to have different levels of transparency depending on the lighting and background.
For French Storm Door information refer to pg. 172 of the ProVia® Door Price List
Superview offers a selection of storm doors constructed for style and value in one complete package.

**SUPERVIEW** STORM DOORS INCLUDE:
- Single seal bottom sweep
- 1¼” x 2¾” wide sculptured frame
- BetterVue® Fiberglass Screen

**LIFETIME LIMITED WARRANTY**
Includes Glass Breakage

R-Value reflects properties of the glass only. Center of glass calculations are based upon software from Lawrence Berkeley National Laboratory.
**ENTRY DOOR AND DESIGNER™ PATIO DOOR**

**IMPACT SHIELD FEATURES**

All glass for Impact Shield Products is laminated to provide protection against wind-borne debris.

Heavy-duty stainless steel hinges resist corrosion and are standard in wind-borne debris regions.

Aluminum window trim of our own exclusive design provides ultimate durability in the harshest of elements. Textured Steel doors have hand-stained smooth aluminum window trim.

**VINYL SLIDING PATIO DOOR**

**IMPACT SHIELD FEATURES**

All glass for Impact Shield Products is laminated to provide protection against wind-borne debris.

Additional heavy aluminum interlock on center stile adds durability and strength.

**STORM DOORS**

All ProVia® storm doors are available for use in the Impact Shield regions. While storm doors help protect your entry door from the elements, they are NOT wind-borne debris tested, and therefore are NOT considered an Impact Shield Product.

“To serve, by caring for details in ways others won’t.” It’s not just our mission, but a way of letting our light shine every day at ProVia®. We continually strive to put these words into action by providing unmatched quality and service. The P-icon symbolizes each employee’s commitment to devoting the utmost care, pride and quality into each building product we manufacture…it’s The Professional Way.

At ProVia, we manufacture energy efficient products and exercise corporate environmental stewardship by recycling, reducing pollution emissions and much more. In fact, our company has received repeated awards from the Environmental Protection Agency such as Partner of the Year - Sustained Excellence for Door and Window Manufacturing.
