MAKE A STATEMENT

Highly-skilled craftsmen assemble hand-beveled glass accented with a variety of unique glass options by precisely cutting, mitering and soldering each component into artistically designed patterns. Art glass purposefully seeks visual character through aesthetic imperfections, while maintaining structural stability. These “imperfections” mimic the hand-made sheet glass of centuries past. They come in the form of textural waves and striations, random seeds (air bubbles) and a variety of other natural effects.

Art glass achieves its personality through these apparent flaws and no two sheets are ever identical. Each glass panel is hand-made and reflects minor differences from piece-to-piece. This is characteristic of any hand-made product and adds to the charm and beauty of the product.

Decorative glass is continually checked for flaws. The patterns can vary in size and particular shapes, but pose no danger of spontaneous breakage or structural instability. Patterns that are severely out of character with the glass are not accepted. Our goal is to provide the finest quality glass panels.
Tacoma features hammered and micro-granite design reminiscent of the Arts and Crafts period. Tacoma adds a southwestern inspired theme bringing heritage and legacy to your windows.
