SHOWN: Versa Custom
Adding Inspirations™ Art Glass to doors and windows naturally enhances the beauty of glass while infusing personality into distinctive focal points of your home.
A PROVIA EXCLUSIVE

Inspirations™ Art Glass allows you to do just what the name suggests – let your doors and windows reflect the inspiration of your imagination with your choice of design and color.

Designs | The process begins with conceptual design. Our beautiful Inspirations Art Glass styles originate from the imagination of our in-house designers.

Resin Bead | The design pattern is created on our computer software and sent to a CNC machine which applies a resin bead to the surface of the glass in one of our four stylish colors.

Color Fill | Five distinct color palettes are offered, empowering you to perfectly reflect the personality of you and your home. Our craftsmen hand-apply this color fill to your glass.

Our Guarantee | The resin bead and color fill are backed by our Lifetime Limited Warranty, and will not fade, blister or peel away from the glass.
The greatest advantage of Inspirations™ Art Glass is the opportunity to add color to your glass. We’ve created a variety of unique color palettes to suit your home’s style.

We also offer four resin bead colors: Silver, Black, Gunmetal and Clay. Combine your favorite color palette and bead color with your choice of design to show your personality on your home’s entryways and windows.

CAPTIVATE WITH COLOR

With our iPad app or ProVia Studio, design your own unique color palette just the way you want it.

CREATING YOUR OWN INSPIRATIONS DESIGN IS EASY

Conveys the bright hues of natural coral, with the backdrop of cool aqua tones.

Silver resin bead recommended

Simulates ocean shore hues, bringing a piece of paradise to your home.

Black resin bead recommended

Features neutral base colors with deep, rich red shades as accents.

Gunmetal resin bead recommended

Draws from nature’s neutral colors to offer you this tranquil experience.

Black resin bead recommended

Features hues associated with nature’s landscapes of the west.

Clay resin bead recommended

Always refer to our Inspirations Art Glass sample for accurate color representation.
MAINTAIN YOUR PRIVACY

Our Privacy Collection Glass offers several options that allow light to filter in while creating an obscured view from the outside. When our hand-applied color fill is added to an area it brings even more vibrancy and elegance to your home.

*All our Inspirations designs are available with these optional Privacy Collection Glass types.*

GLASS OPTIONS

*Note: The obscurity of our privacy glass is achieved by the glass’ surface texture. When liquid color fill is applied to the surface of textured glass, it fills in the low spots, resulting in a clearer, more transparent glass.*
TAFLETA
Made to resemble the texture of taffeta fabric, this abstract swirling pattern brings a whimsical feel to your home.

GLUECHIP
This popular pattern resembles ice crystals on glass in the winter, a striking effect that blocks visibility without blocking out light.

CHINCHILLA
Created to resemble chinchilla fur, this elegant obscure texture provides maximum privacy.

OBSCURE PEBBLE
A dignified pebble textured glass that exquisitely reacts to our color fill.
Entry Systems, Patio Doors and Windows with Inspirations Art Glass utilize our ComforTech Warm Edge Glazing System.

Each Inspirations™ Art Glass piece is filled by hand. The possibilities of color variations, striations and other natural effects mimic the look of stained glass and are not to be considered flaws. They are a natural characteristic of a hand-made product.
The Lily series brings you a burst of harmonizing and beautiful color while alluring an inner peace in your home. With your own personal tastes and style, Lily makes a fresh artistic statement that complements all architectural style homes.
