White & Grey Mix – Fieldstone Product Line	MSV-19001-27	March 27, 2020

Please use the enclosed certificate recognizing this achievement with pride; it recognizes the dedication of your company to providing certified manufactured stone veneer units. This certification also entitles your company to use the official certification logo on communications, marketing, and packaging, subject to the limitations contained in the Program Requirements. The logo will be provided to you electronically.

The certification for each product line is valid for one year from the date that test samples were manufactured. The expiration date for each product line is provided above. In order to maintain certification, a recertification application along with all appropriate documentation as required by the Program Requirements must be submitted to NCMA by the expiration date.

Please note that nothing in this program provides or implies any warranty for and products or producers. Also, by submitting the application for certification the company receiving certification shall fully indemnify, hold harmless and defend (collectively "indemnify" and "indemnification") the National Concrete Masonry Association and its members, directors, officers, and employees (collectively, "Indemnified Parties") from and against all claims, demands, actions, suits, damages, liabilities, losses, settlements, judgments, costs and expenses (including but not limited to reasonable attorney's fees and costs), whether or not involving a third party claim, which arise out the NCMA Manufactured Stone Veneer Product Certification Program.

Please feel free to contact me directly if you have questions or if I can be of further assistance. Again, congratulations on this achievement.

Yours truly,
