

ProVia® Builds Doors THE PROFESSIONAL WAY

ProVia caters to a niche within the door market that demands a high degree of customization coupled with outstanding quality. Our company defines the products that meet this demand as "professional-class." We have found success by adhering to a set of core values that guide us as we develop rewarding, long-term relationships with our employees, customers and homeowners.

ProVia custom entry doors are built to your home's exact measurements for a precise fit, protection, security, and energy efficiency. The materials that go into our custom-made doors are premium quality and exceptionally durable, far surpassing the ready-made doors at the big-box hardware stores. Our craftsmanship and care for details can be seen in each door we produce.

SECURITY

We ensure the strength and security of every door, so you have peace of mind.

DURABILITY

Crafted with the finest materials and backed by our Lifetime Limited Transferable Warranty, the durability of our products can't be beat.

BEAUTY

A beautiful ProVia entry system will always greet your guests with classic elegance and style.

ENERGY EFFICIENCY

Engineered to keep the elements at bay and your home comfortable year round.

Signet Oak 460 entry door in Caramel stain with Esmond Decorative glass and Emtek Hammered Lever hardware in Oil Rubbed Bronze

INDUSTRY ASSOCIATIONS, ACCREDITATION, & TESTING

Through its membership in WDMA, ProVia collaborates on standards and advocacy efforts to advance the window and door industry.

Involvement with FGIA allows ProVia to stay at the forefront of glazing and fenestration technology, benefiting from shared research and best practices.

ProVia's participation in NFRC ensures that, through voluntary third-party testing, their products meet rigorous energy performance and rating standards, reflecting their commitment to sustainability and quality.

NEW ASCENT* FIBERGLASS ENTRY DOORS When we set out to create our newest entry door line, we had one goal in mind: to elevate the standard—to rise above what's expected in a fiberglass entry system. We searched for the finest wood species and grain patterns because a truly exceptional door starts with the details. From the texture to the grain, every detail is crafted to give homeowners the look and feel of authentic wood. This is more than a door. This is craftsmanship. Thoughtfulness. Timeless design—reimagined for the modern home. This is Ascent, entry doors that elevate your home.

NEW FOR 2026

We rely on trusted building professionals, contractors, and homeowners, in partnership with our experienced team, for input on exterior design trends. We're excited to introduce new options that elevate the integrity, function and beauty of our entry doors.

ENHANCE YOUR CURB APPEAL

Professional-grade exterior products from ProVia® boost curb appeal and offer protection and security. Elevate the appearance and upgrade the privacy and safety of your home with these entry door options and accessories.

SMOOTH SDP DOORS

With Smooth Simulated Divided Panels, your front entry door becomes a stunning focal point, blending contemporary chic with versatile functionality. These sleek, modern panels offer a sophisticated aesthetic that elevates any facade. Enhance your privacy and style by pairing them with a variety of privacy glass options, tailored to fit your personal taste.

Available in sizes up to 42" x 96".

URBAN MODERN EMTEK® HARDWARE

Available in four stunning finishes—Black, Satin Brass, Satin Nickel, and Oil Rubbed Bronze—this exterior hardware exudes contemporary elegance. Customize your look further by pairing it with one or two-toned Emtek Select interior handle sets, available in a variety of textures. With Emtek Urban Modern hardware, your entryway will captivate with its modern design and unparalleled versatility.

DOOR PULLS

Make a bold statement by adding a pull handle to your front entry door. Available in sleek Brushed Stainless and striking Black finishes, these handles come in both round and square shapes to match any design aesthetic. Choose between impressive 48" or 72" lengths to enhance your door's elegance and functionality. Elevate your entryway with these stunning, eye-catching door pulls that combine modern style with practical appeal.

Available on doors up to 42" wide.

VENTING SIDELITE

Elevate your home's entrance with a Signet® front entry door featuring a venting sidelite. This innovative design allows you to effortlessly invite fresh air into your home while maintaining security and style. This product comes with a retractable screen to enjoy a bug-free breeze, blending the beauty of a Signet door with practical ventilation.

THE **COMPONENTS**

The components are the small things that set our doors apart from the competition. A lot of small things add up to a big difference.

CUSTOM GLASS OPTIONS

Our ComforTech™ Warm Edge Glazing Systems include decorative glass, art glass, internal blinds, and internal and external grids.

CASING

Our 2½" and 3½" casing covers paint lines, providing a professional installation. Choose from Cherry, Mahogany, Oak, and Poplar. Available in stained Cherry, Fir, Mahogany, and Oak, or in painted Poplar.

GLASS TRIM

Available in different textures and styles. Trim options will be determined based on the door style chosen. All glass trim falls into one of two main categories: Flat and Contoured.

Z-AC THRESHOLD

Featuring an auto-adjusting riser and built-in sealing system that adjusts to your entry door's changing needs over time, ensuring protection against air and water infiltration. Standard on Signet® and Legacy™.

HEAVY-DUTY HINGES

Three heavy-duty ball bearing hinges come standard with every entry system. Additional 4th hinge option for greater durability (standard on 8' doors).

WEATHERSTRIPPING

The energy-efficient weatherstripping runs along the top and sides of the door and interlocks with the CornerShield $^{\text{TM}}$ for the most efficient seal you'll find for keeping moisture, wind and dirt out of your home.

SECURITY PLATE

We include our 20-gauge security plate for extra strength and to help prevent kick-ins.

DUST BOX & STRIKE PLATE

The dust box limits air infiltration and has a nice appearance that most other door manufacturers don't provide. An exclusively designed fully adjustable strike plate makes this unique 2-piece construction easier to custom fit.

SWEEP

Bulb and dual blade sweep virtually eliminates drafts, keeping your home comfortable.

Not available for outswing doors. See entryLINK for complete limitations and restrictions.

* Finish warranty will match the finish warranty of door series.

A one-of-a-kind alternative to composite or wood jambs, this component utilizes the strength of an LVL interior, the rot-proof performance of a FrameSaver $^{\text{m}}$ bottom, and the durability of a composite frame exterior. Offering a lifetime jamb warranty*.

PREFINISHED, MAINTENANCE-FREE

Available as a textured or smooth frame, providing you with the benefit of a prefinished, maintenance-free system, along with the beauty of a stain or paint finish that matches your entry door.

FLOATING BRICKMOLD

Even if your walls aren't plumb, your door unit can be. With ¼" of "float," the floating brickmold adjusts to fit your needs. Remove covers, install fasteners and reattach covers for a flawless, clean install.

PLUMB INDICATOR

Removable frame stop cover allows for concealed plumb indicator and fasteners.

- Installation made easy
- Removable frame and brickmold covers
- Eliminates unsightly fastener holes

INSTALLATION HOLES

Pre-drilled holes in frame for ease of installation.

COMPOSITE BOTTOM

Prevents water absorption, warping and rotting.

ULTIMATE FLEXIBILITY

Get ultimate flexibility between 4%6" and 8%6" frame widths.

3½" FLAT RIPPABLE BRICKMOLD

2" STANDARD RIPPABLE BRICKMOLD

ADDITIONAL OPTIONS

Mull Cover for 1" Build-Up

3½" Flat Rippable* Brickmold to 2"

2" Standard Rippable Brickmold to 1%"

^{*} Ripping brickmold produces a rough-cut edge which will be painted or stained, but not exactly match the original textured or smooth finish.

FRAME OPTIONS

PermaTech™

Our PermaTech composite door frame system combines the strength and convenience of wood with enhanced properties that make it moisture and insect resistant. PermaTech will not absorb or wick moisture and will never rot or splinter, and is covered by a Lifetime Limited Warranty.*

* No storm door applied. See full warranty for limitations.

FrameSaver®

FrameSaver wood frame and brickmold with finger-jointed composite bottom prevents water absorption and carries a Lifetime Limited Warranty when used with aluminum frame cladding on the exterior.

Available with Textured or Tuftex™ Smooth cladding.

Steel L-Frame

Available on select Signet® and Legacy™ door styles

- Aluminum door stop provides greater security and is more durable than wood
- B Energy-efficient weatherstripping
- (c) 18-gauge steel L-frame with a 12-gauge hinge plate welded on for extra strength and security

THRESHOLD OPTIONS

Z-AC Threshold

Z-Articulating Cap thresholds automatically adjust during and after installation, saving time and eliminating service calls. The Z-AC provides protection against air, water and insects, even when conditions aren't perfect or change over time.

Standard with Signet® and Legacy™

Z-AI Threshold

Z-Adjustable Inswing threshold cap screw plugs prevent damage to adjustment screws and help maintain long-term smooth adjustability. A dual durometer cap seal overlaps the high dam, forming a strong barrier against air and moisture.

Standard with Ascent[™]

Z-OB Threshold

Z-Outswing Bumper thresholds are engineered for superior performance in high-exposure and severe weather environments. As pressure increases against the door, the bumper seal strengthens, delivering exceptional defense against air and water intrusion.

ADA Compliant Threshold

ADA-compliant thresholds feature durable allaluminum construction and advanced sealing systems for reliable performance, while meeting accessibility requirements outlined by the Americans with Disabilities Act.

SIGNET® FIBERGLASS

Signet Fiberglass doors are available in Mahogany, Cherry, Oak, Knotty Alder, Fir and Smooth. With robust hardwood stiles and rails dovetailed at each corner, the Signet door is structurally superior to traditional fiberglass doors. All Signet Fiberglass doors exhibit our exclusive DuraFuse™ Finishing System featuring P³ Fusion, allowing us to offer an industry-best 15-year finish warranty.

SIGNET FEATURES

- A The inside door frame is handstained or painted to match your door, providing you with a consistent visual appearance.
- B The 2%" finger-jointed 3-ply hardwood hinge stile provides superior structural integrity.
- C Stiles and rails are dovetailed at each corner, creating a structurally solid, integrated frame.
- Glue is applied to the rails and stiles to permanently adhere the door skin to the frame.
- Door edge is constructed with Cherry, Mahogany, Oak or Fir wood matching the selected series.
- Signet doors are foam filled by a computer driven process that ensures the optimal foam fill for maximum efficiency and strength.
- G The authentic wood look is made possible by using cutting-edge NVD (Nickel Vapor Deposition) technology by MasterGrain™.
- The 4¼" finger-jointed 4-ply hardwood strike stile provides a solid mounting surface for hardware and superior structural integrity.
- Scientifically formulated compounds provide superior resistance to denting, splitting, cracking and warping.
- High-definition panel profile creates excellent shadow lines and distinct panel designs.
- The revolutionary DuraFuse™ Finishing System featuring P3 Fusion yields unprecedented finish durability.
- A high-performance composite material is used on all Signet fiberglass bottom rails, giving excellent rot-resistance.
- Z-AC Threshold with auto-adjusting riser.
 Standard with anodized bronze finish.

Smooth Panel Planks

Smooth doors with panel planks are available with Ascent entry doors.

- Ascent White Oak
- Ascent Smooth
- Available in Narrow 30" Nominal Width See entryLINK for skin options
- * White Oak with wide embossing is used on doors with wide panels (i.e. 440-1P style).
- ** White Oak with traditional embossing is used on doors with narrow panels (i.e. 006 style). Sidelite embossing will match the embossing used on the door.

ASCENT FEATURES

- A The inside door frame is handstained or painted to match the door, providing a consistent visual appearance.
- B 2 %" wide wood stiles on each side of the door slab enhance structural rigidity and contribute to strong performance and durability.
- Glued, dowel-pinned rod construction reinforces the corners of the door unit for superior strength and alignment.
- Glue is applied to the rails and stiles to permanently adhere the door skin to the frame.
- Woodgrain-textured door edge matches the slab skin, eliminating the visual disconnect often seen on fiberglass doors.
- Thicker fiberglass skin than many other doors on the market improves impact resistance and long-term durability.
- G High-performance polyurethane core delivers excellent insulation value for improved energy efficiency in both warm and cold climates.
- Ascent doors are foam filled by a computer driven process that ensures the optimal foam fill for maximum efficiency and strength.
- Premium wood was used to create the Ascent woodgrain texture through a laser/acid etching process.
- Where the hardware mounts, a lock block is added for extra support and durability.
- High-performance composite bottom rail resists rot and moisture absorption, particularly beneficial in high-exposure environments.
- Z-Al Threshold with manually adjustable riser.
 Standard with aluminum mill finish.

FRENCH DOORS

French doors bring timeless elegance and abundant natural light to your home's entryway, creating a warm and welcoming first impression. Their classic double-door design blends beauty with functionality, offering wide, open views and easy access to outdoor living spaces. With customizable styles and finishes, French doors elevate both curb appeal and everyday living.

FRENCH DOOR DETAILS

- All door styles are available as a French Door
- Hinged on each end with door knobs in the center
- Available with either left or right active door (main entryway)
- Center astragal is attached to the inactive door and includes top and bottom slide bolts (used to open inactive door)
- Available as inswing or outswing
- Header security plate standard on frame
- Hardware Installation: locksets, deadbolts and kickplates will be installed on active and inactive doors, all other hardware on active door only
- Available with Trilennium® and PanoLock® multi-point hardware

ASTRAGAL DETAILS The French Door Ast

The French Door Astragal provides functionality and security

Astragal secures inactive door at top and bottom of your french door system

Lockable throw bolts improve security

Astragal bolt penetrates threshold allowing boot to seal, creating a better barrier against the elements

Astragal is stained to match Signet and Ascent™ Fiberglass stained doors

STYLES AND CONFIGURATIONS

All door styles are available as a French Door.

UNEQUAL FRENCH DOORS

Unequal french doors allow you to use the larger entry door day-to-day, yet have the option to open the smaller, inactive door to gain full access.

Available in Signet® and Legacy™ smooth. Internal blind sizes are limited.

HINGED PATIO DOORS

Our hinged patio doors bring style and versatility to your home, available in 2- or 3-lite units that beautifully open your space to the outdoors. Designed to perfectly complement our Signet[®], Ascent^{\mathbb{M}}, and Legacy^{\mathbb{M}} entry doors, they create a seamless, cohesive look while delivering lasting performance and curb appeal.

STANDARD FEATURES

A keyed Schlage® Flair handleset with a Maximum Security Thumbturn deadbolt is included. Choose from Bright Brass, Antique Brass, Satin Nickel, or Black finishes.

The lock area is reinforced with a 20-gauge steel security plate for added strength.

Spring-loaded latch system automatically engages upon closing. Latch also includes interior locking feature. BetterVue® fiberglass screen mesh is standard. Heavy-duty fiberglass, aluminum or SeeVue® stainless steel mesh is optional.

Suspended by ball bearing rollers, this top-hung heavy-duty aluminum screen frame reduces binding, creating effortless operation.

Screen frames are available in all standard and trending colors.

Z-AC Threshold with an auto-adjusting riser. Available in Anodized Bronze or Mill finish. Standard with Signet.

Z-AI Threshold with cap screw plugs. Available in Mill finish. Standard with Ascent.

DOOR SWING

OPTIONS

Custom Widths and Heights - Need a little more height or a little less width? We are pleased to offer customized patio door widths and heights in 1/8" increments.

Door Swing - Illustrations to the left are viewed from above. Inswing only.

Finishes - Patio doors are available in all finishes.

^{*} Optional Aluminum Frame Cladding will increase brickmold-to-brickmold width by ¼" and height by ½". Not all sizes available in all door types.

REMOVABLE MULL POST & VENTING SIDELITE

When Signet® entry doors are paired with FrameSaver® frames, customers can choose to incorporate a removable mull post, providing a wider opening that simplifies moving large objects in and out of your home. Additionally, the venting sidelite with a retractable screen enhances ventilation while keeping bugs out, ensuring fresh air flows freely without compromising comfort. Available in the following configurations:

REMOVABLE MULL POST WITH VENTING SIDELITE

Retractable screen is optional with this configuration

VENTING SIDELITE

with retractable screen

FEATURES

- Fully retractable screen with magnetic rail to hold screen in closed position
- Multi-point locking system on venting sidelite
- Invisible hinges on venting sidelite

Venting sidelite must be on the strike side.

GLASS OPTIONS

CLEAR GLASS

Practical and classic, clear glass offers unobscured views through exterior doors, allowing for full views of your property.

SIMULATED DIVIDED LITES (SDL)

Simulated Divided Lites are reminiscent of old world craftsmanship when separate pieces of glass were mulled together with wooden grids.

INTERNAL & EXTERNAL GRIDS

Grids add a classic, architectural touch to entry door glass by creating a structured, visually appealing design.

INTERNAL BLINDS

Internal blinds are a convenient option for blocking harsh sunlight and increasing privacy on entry doors and patio doors.

SILK SCREEN & PRIVACY GLASS

Silk screen and privacy glass ensure a high level of obscurement but allow soft light to filter in and illuminate a space.

DECORATIVE GLASS

Decorative glass mimics the look of hand-made sheet glass, crafted into stunning ornamental designs.

WROUGHT IRON GLASS

Wrought iron designs add a touch of old-world charm to your door and create a sophisticated focal point for the entryway.

ART GLASS

A ProVia[®] exclusive, Art glass offers you an opportunity to create a unique artistic statement using design and color.

SUPER SPACER®

Warm edge technology is more than just a low-conductive product that helps make insulated glass units more thermally efficient. The warm edge spacer is the seal that keeps the glass package in entry doors from failing. Super Spacer is a dual-seal insulating glass system. This non-metal, structural foam spacer resists condensation, reduces energy costs, provides long-life durability and adds both comfort and value to your doors.

Super Spacer is better able to ensure NFRC ENERGY STAR® certification by providing the best thermal conductivity, the lowest U-Factor among dual-seal systems and the best durability available in the industry. The all-foam formula blocks the heat escape path, improves sound absorption over traditional metal spacers and lasts up to nine times longer in durability tests than single-seal units. The all-foam formula reduces the effects of temperature changes, barometric pressure, wind load and glazing pressure, resulting in fewer seal failure and stress cracks.

NOISE REDUCTION

The all-foam formula's excellent sound dampening properties reduce outside noise, even in industrial environments

MYLAR 10-LAYER VAPOR BARRIER

The Super Spacer thermoset foam matrix is exceptional. Moisture is kept out, gas is kept in and conductivity is virtually nonexistent.

THE NO-METAL ADVANTAGE

Thermal efficiency through no presence of conductive metals is the Super Spacer hallmark.

LASTING APPEARANCE

The Warm Edge Glazing System stands up to the natural bending and bowing from temperature changes, barometric pressure and wind load.

IMPROVED STRENGTH

The P-1 test exposes units to 140°, 95-100% humidity and constant UV bombardment. Each week of testing is equal to one year of field use. Super Spacer survives with long term P-1 performance with a low seal failure history.

WARMEST EDGE

Super Spacer provides the warmest edge among dual-seal systems with up to +14.4° F / 8° C warmer temperatures at the edge of the glass.

COMFOR**TECH**™ GLAZING SYSTEM

Measurably improve thermal performance with the ComforTech™ Warm Edge Glazing System. You'll enjoy better energy efficiency and a warmer glass edge.

GLAZING SYSTEM OPTIONS

Understanding the Acronyms

- T Triple Glazed
- D Double Glazed
- L Low E
- C Clear
- A Argon
- K Krypton
- **E** Elevation (no gas)
- **UV** Ultraviolet

Since Low-E glass has a slight color tint, it is recommended that sidelites are ordered with the same glazing system as the door. See entryLINK for which glazing system is required for ENERGY STAR® certification, as well as for availability.

LIFETIME LIMITED WARRANTY

Includes Glass Breakage and Seal Failure

ELEVATION SERIES

For Customers in **High Altitude Areas**

These glass packages are insulated without Argon or Krypton gas.

Capillary tubes are used to equalize the pressure caused by extreme elevation changes.

TLE-UV

DLE **DLE-UV**

DE

SIMULATED DIVIDED LITES

Simulated Divided Lites (SDLs) are reminiscent of old world craftsmanship when separate pieces of glass were mulled together with wooden grids. We deliver that same stunning appearance through our high-tech fiberglass 1" wide x $^{11}/_{32}$ " thick grids combined with the energy efficient qualities of our ComforTech 11 glass packages.

CRAFTSMAN

Only available for Signet® Fir series and Signet 420 Smooth.

BEVELED GLASS WITH SDLs

Each piece of beveled glass is secured with Patina caming for the beautiful look of a true divided light, with the efficiency of a single doorlight. Available in Signet, Ascent, and Legacy series.

CONTOURED

Available for all Signet series except Fir, and all Ascent[™] series.

SMOOTH

Available with Flat trim in the Signet, Ascent, and Legacy™ Smooth series.

LIFETIME LIMITED WARRANTYIncludes Glass Breakage & Seal Failure

Since Low-E glass has a slight color tint, it is recommended that sidelites are ordered with the same glazing system as the door.

All entry systems with Simulated Divided Lites can be ENERGY STAR® Certified depending on the glazing system you choose. See entryLINK for which glazing system is required for ENERGY STAR certification, as well as for availability.

INTERNAL BLINDS

Internal blinds are a convenient option for blocking harsh sunlight and increasing privacy on entry doors and patio doors. Constructed with sturdy aluminum and enclosed in tempered safety glass, the blinds are protected from weathering, damage, and dust and they are not a hindrance to cleaning your glass.

While internal blinds offer a practical solution for blocking harsh sunlight and enhancing privacy, they are not intended as full privacy or blackout devices.

FEATURES

White blinds have a 20-year warranty and colored blinds have a 10-year warranty.

- Ergo track on glass
- U-Privacy channels (side, top & bottom) eliminate light gaps, shadows and sunlight glare
- \bullet Available with clear glass and internal grids for Legacy $^{\!\scriptscriptstyle{\mathsf{TM}}}$
- Full tilt closure (top to bottom) allows the blinds to tilt completely closed keeping unwanted light out

TINTED GLASS OPTIONS

We're excited to introduce two new tinted glass options for entry doors: Gray and Bronze. These new options combine style with practical benefits to enhance both the look and performance of your entry door.

GRAY

Gray tinted glass offers excellent glare control and exceptional protection against interior fading, helping preserve the color and integrity of fabrics and finishes by reducing UV exposure.

BRONZE

Bronze tinted glass provides high visible light transmittance, adds a warm glow to interior spaces, and beautifully complements brick or stone exteriors—all while offering reliable UV protection.

SILK SCREEN GLASS

These designs provide enhanced privacy while adding a touch of elegance and appeal. The intricate patterns not only ensure seclusion but also elevate the overall aesthetic of your entryway. Combine functionality with stylish design to create a welcoming and refined first impression for your home.

BREEZEProVia Proprietary Design

EDGE

TRINITYProVia® Proprietary Design

AVAILABLE STYLES 430 440 Trinity Edge Breeze Pairing a frosted privacy glass sidelite with a silkscreen design will work; however, they will not match exactly. Frosted areas of silk screen glass have a privacy rating of 9.

PRIVACY GLASS

Privacy glass ensures a high level of obscurement but allows soft light to filter in and illuminate a space.

CHINCHILLA | 8

Due to the unique, tightly grooved texture of Chinchilla privacy glass, this design naturally reflects and refracts light in a more noticeable way. As a result, the glass may display a more pronounced V-like or diamond-shaped pattern (see small image above), especially in certain lighting conditions.

FLUTED | 7

MISTIFY | 6

OBSCURE | 8

52

These photos were taken with objects directly behind the privacy glass in a well-lit space. Actual privacy levels will vary depending on your distance from the glass and the amount of light in the room in comparison to the light outside your home. For extra privacy, contact customer service to add an extra pane of privacy glass to your door. Double privacy glass is an option for SDP doors and this is set up in entryLINK.

DECORATIVE GLASS

Decorative glass is unique in that it achieves its personality and beauty through aesthetic imperfections – waves, striations, and air bubbles that create natural effects and singular characteristics. ProVia® decorative glass mimics the hand-made sheet glass of centuries past, and these stunning ornamental designs elevate the look of your entry door, boosting the curb appeal of your home.

All ProVia decorative glass designs include the ComforTech™ Warm Edge Glazing System, which measurably improves its thermal performance and energy efficiency.

ProVia Exclusive

These decorative glass designs are only found on ProVia products. This gives your home a unique style that can't be found anywhere else.

Wrought Iron designs are not ProVia exclusive designs.

Covered by a Lifetime Limited Warranty

Warranty includes glass breakage and seal failure.

Energy Efficient

Most full wood frame and composite frame entry systems using Decorative Glass can be ENERGY STAR® Certified.

See the Energy Performance Calculator on our website for energy ratings on specific styles.

Scan to watch the Decorative Glass creation process.

For more styles and configurations, visit provia.com or scan this code.

CHINCHILLA GLUECHIP OBSCURE

STEP 4 CHOOSE COLORS TO FILL THE DESIGN

Select hues from ProVia® Standard and Trending color palettes. Clear Fill and No Fill may also be chosen, as well as custom colors. Color placement and number of colors is pre-determined based on the Art Glass design and will render as you choose them. Picture this as a color-by-number system! Experiment with various color combinations until you find the perfect match for your home.

COLOR FILL OPTIONS

Denotes Trending Color

Always refer to our color selector for accurate color representation.

Privacy glass is tempered for safety and this process may cause minuscule surface waves on the glass. Since the surface is not completely flat, the color fill may migrate toward lower points in the glass, resulting in varied saturation levels on the surface.

CLEAR FILL

Clear Fill imparts a degree of transparency to privacy glass. The Clear Fill option may be used on privacy glass sections of the design to allow homeowners a clearer, yet translucent view.

HARDWARE

We offer a variety of designs and finishes all with their own security features, unique functionality, and advanced technology. You'll be sure to find the features and design that will ensure your front door is the perfect complement to your new entryway.

Schlage® Addison hardware with Encode Plus™ Century Deadbolt in Black

See entry door hardware styles, colors and operation videos on our website.

PANOLOCK® PLUS MULTI-POINT HARDWARE

PanoLock® is the first and only multi-point lock that works with multiple hardware options, bringing security and performance to every entry and hinged patio door.

A. TAPERED BOLT

Unlike other locks that tend to catch, PanoLock's tapered bolts engage easily, even when the door is out of alignment.

B. ADJUSTABLE ROLLER STRIKE

Rollers lower operating force and allow the tapered bolt to gently snug the door panel against the weatherstrip.

STRENGTH

PanoLock offers enhanced strength and security vs. standard locking systems.

ENHANCED PERFORMANCE

Equipped with two tapered locks, PanoLock provides enhanced performance while reducing operation force.

ULTIMATE SECURITY

PanoLock features roller strike plates equipped with extra anchor screws for added security.

FLEXIBILITY

PanoLock can be used on both inswing and outswing applications.

MULTIPLE HARDWARE OPTIONS

Thumb press, lever or knob - PanoLock Plus can be paired with select Schlage® and Emtek® hardware. Some of the options available are shown below.

See entryLINK for all compatible hardware options.

Signet® Cherry 440-1PP entry door in Coffee Bean stain with clear glass, internal grids, and Emtek Urban Modern hardware in Black with PanoLock Plus Multi-Point Lock

TRILENNIUM® MULTI-POINT HARDWARE

The Trilennium Multi-Point Locking System provides ultimate protection and peace of mind with the power of three full deadbolts and a solid lock design that even strengthens the door panel. Trilennium hardware has a 10-Year warranty on materials and workmanship.

TRILENNIUM MULTI-POINT LOCKING HARDWARE

The Trilennium Multi-Point locking system provides more than just security. It offers homeowners better door closure and sealing than a single point lock.

- Three 1" deadbolts latch with deadbolt throw.
- Deadbolts include anti-saw hardened steel pin.
- A solid I-beam runs the full length of the lock, and increases the strength and precision of the lock.
- Latch and deadbolt release with a single downward movement.

Top and bottom latch design allows for door misalignment and ¾" pull-in when deadbolted.

Angled shoulder on bolt engages with the adjustable roller strike

Signet® Fir 420 entry door in English Chestnut stain with Brookhaven decorative glass and Trilennium Eclipse hardware in Flat Bronze

HOPPE® MULTI-POINT HARDWARE

Hoppe Multi-Point hardware offers the additional security of four points of latching when the door is locked, and the easy operation of one point of latching when the door is unlocked.

FEATURES

- Stainless Steel and other non-corrosive components.
- Anti-Back Drive prevents locking points from disengaging from the outside for added security.
- Latch Blocker on inactive systems will not allow multi-point activation until inactive system is activated.
- Lock Out Feature on interior system allows for multi-point activation from the exterior of the door by lifting handle.
- Backplate and cylinder housing are forged into one piece for improved appearance and easier installation.
- Simultaneous retraction feature enables all locking points to be retracted by pushing down on the inside handle.

SCHLAGE® ENCODE PLUS™ SMART WI-FI DEADBOLT

The **Schlage Encode Plus Smart Wi-Fi Deadbolt** combines robust security, smart home compatibility, and user-friendly access control. One of its standout benefits is that you can assign unique access codes for friends, family, or guests directly through the Schlage Home app (or via Apple Home / Home Key integration). This lets you track who comes and goes, revoke or change codes as needed, and avoid giving out physical keys. It's ideal not just for primary homes, but also for rental properties or Airbnb units, where temporary or scheduled access is important. The flexibility of remote locking, activity logs, and guest access make it a strong choice for anyone managing multiple visitors or wanting more control over who enters and when.

FEATURES

- Offers iOS and Android compatibility
- Voice control with Alexa or Google Assistant
- Manage up to 100 pin codes
- Backed by a best-in-class BHMA rating in security, durability and finish
- Customizable settings make it easy to personalize your lock to fit your lifestyle

Signet® Cherry 003 entry door with two sidelites in Natural Bark stain with Genesis decorative glass and Schlage® Camelot hardware in Black featuring the LightEn™ in-frame light

LIGHTEN™ IN-FRAME LIGHT

Elevate your home's security and style with LightEn, the innovative header that brings built-in illumination to your entry door. This battery-powered, wire-free solution features dusk-to-dawn motion sensors that automatically light the way at night or in low-light areas, adding both safety and everyday convenience with a sleek, integrated design.

BUILT-IN ENTRY LIGHTING FOR SAFETY AND PEACE OF MIND

- Discreetly integrated into the door frame.
- Delivers automatic overhead lighting to help you safely unlock and enter your home in the dark.

MOTION-ACTIVATED ILLUMINATION

- The dusk-to-dawn sensor detects movement within 4-6 feet.
- Illuminates only in low-light conditions to optimize battery life and enhance nighttime security.

BATTERY-POWERED CONVENIENCE

- Operates on eight AA batteries.
- No wiring required.

INSWING FRAME COMPATIBILITY

- FusionFrame®
- FrameSaver®
- PermaTech®
- Solid Wood Frames

COLOR AVAILABILITY

- Offered in a white finish.
- Compatible with painted, stained, or aluminum-clad frames.

MULTIPLE DOOR CONFIGURATIONS

- Single Doors
- French Doors (light over both doors)
- Hinged Patio Doors (light over-active door only)

See entryLINK for door width availability.

The images shown are 3-D renderings for illustrative purposes only. The exploded view is a conceptual representation intended to highlight the product's individual components and may not reflect exact scale or installation details.

Not recommended for use with a storm door, as it may obstruct the motion sensor's visibility and effectiveness.

HINGE STRAPS & CLAVOS

The Hinge Straps, Clavos and Speakeasy are options that can give your entryway an old world look. Combine these options with our Signet® Knotty Alder doors to achieve a rustic or antique style. Hinge Straps, Clavos and Speakeasy are constructed of durable flat black aluminum.

ProVia® does not recommend entry doors with Speakeasy applications in the Northern climate zone. We also recognize some of the North-Central climate zone areas are not suitable for this application as well. We recommend this application to be used only in the South-Central and Southern climate zones. Speakeasy applications carry a 5-year limited warranty. (Doors with Speakeasy are not ENERGY STAR® certified.)

PET DOORS

RANGER®

Engineered from the best raw materials for a rugged, longlasting door.

- **Cellular PVC Frame** Strong, weatherproof, and mold-resistant, and 3,000X more insulating than metal frames.
- Rugged Flap System The insulated flap system
 is made from premium materials for maximum energyefficiency, pet safety, and durability. The flap has an
 insulating SBR rubber core, protected with marinegrade canvas on each side.
- Locking Security Panel All door-mounted RANGER dog doors include a locking security panel.
- DoubleMag™ Technology for an airtight seal that keeps extreme weather outside.

STORM DOORS

Every storm door is individually customized to the highest standards in the residential market for homeowners who appreciate impeccable, uncompromising quality. Please see the ProVia® Storm Door brochure or scan the QR code for all options.

STORM DOOR FEATURES

- A Smooth function is essential. That's why we include a quality door closer in every storm door package. Varies by model. Our air release system features a continuous closing action without the delayed rebound action of previous generation closers.
- B Extruded aluminum frame adds beauty to your door by virtue of the rounded cove molding along the glass edge of the extrusion.
- All our storm doors are constructed with tempered safety glass.
- Color matched aluminum installation screw covers ensure a finished look.
- Non-operable sashes are secured by our color matched polycarbonate clips or an internal sash lock system. Varies by model.
- Each door features quality hardware that adds beauty and functionality to your new storm door. Varies by model.
- G Durable, oven-baked polyester finishes are backed by a Lifetime Warranty for lasting beauty and low maintenance.
- H Corrosion-proof corner gussets enhance the structural integrity of the door.
- Our bottom expander with sweep allows for a beautiful custom-fit to any entry. Varies by model.

SPECTRUM™ STORM DOOR FEATURES

INVENT™ RETRACTABLE SCREEN

InVent retractable balanced screens are housed inside the storm door frame, providing quick and easy ventilation without the need for removing and storing glass panels. With the screens retracted, you will enjoy a clear, unobstructed view from inside the home, while also displaying the elegance of your ProVia® entry door from the street.

GLASS PANEL OPTIONS

Choose the full view, three-quarter view, or half-lite model that best fits your needs and complements your entry door style.

DURABLE FRAME CONSTRUCTION

The 16-gauge sculptured frame reinforced with re-engineered corner gussets will stand the test of time and provide an additional layer of protection to your entry door. Your storm door is covered by our limited lifetime finish and glass breakage warranty.

CAMDEN HARDWARE (standard)

The solid brass double-mortise hardware can be keyed to match your entry door, conveniently allowing you to use the same key for both doors. Its design includes a contemporary feel with straight lines while maintaining a timeless overall appearance. Available in six finishes to match your entry door hardware.

AESTHETIC OPTIONS

The Spectrum storm door is available in 33 standard and trending paint colors, allowing you to match or complement your entry door. For a more personalized touch, you can even choose a custom color. Select from clear, tinted, privacy, or Art glass, and explore a variety of hardware and finish options to showcase your unique style.

DISCOVER MORE

WEBSITE

ProVia.com makes it easy to explore and compare numerous door, window, siding, stone or roofing options in a straightforward, interactive way. Configure a door or window, visualize products on your home, explore color palettes, and learn about different architectural styles—all from our innovative Design Center. Save your favorite products, colors, photos or ideas throughout the site into your own ProVia® portfolio for reference any time and share them across your favorite social media platforms.

VISUALIZER

Let your imagination run free with this exterior home design tool. Select from a library of existing home styles or upload a photo of your own home.

In a few easy steps, update your siding color, add stone or metal roofing, configure windows, or create a one-of-a-kind entry door system.

Looking for professionally inspired color and product palettes? Apply one of our pre-selected Designer Collections to create a curb-appealing look.

APP

Use the ProVia app to configure doors and windows or select from an extensive collection of vinyl siding, manufactured stone and metal roofing styles.

Features:

- Door and Window Configuration
- Vinyl Siding Profiles, Colors and Accessory Accents
- Manufactured Stone Styles, Color Palettes and Grout Options
- Metal Roofing Profiles, Trims and Colors
- Videos, Photo Galleries and Catalogs
- ProVia Dealer Locator

SOCIAL MEDIA

We love seeing how you apply our products to your home. Please share your photos with us.

"To serve, by caring for details in ways others won't." It's not just our mission, but a way of letting our light shine every day at ProVia®. We continually strive to put these words into action by providing unmatched quality and service. The P-icon symbolizes each employee's commitment to devoting the utmost care, pride and quality into each building product we manufacture...it's The Professional Way.
